

Mostafa Khamis Shaaban Abd-Alsamie

Full-Stack Web Developer

Egypt, Giza, Agouza | +20 111 042 6478 | albrnsmstfy252@gmail.com | github.com/mstf-ai

PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Web Developer with a Bachelor's degree in Management Information Systems (MIS) and hands-on experience building dynamic web applications using modern technologies including React, Next.js, PHP/Laravel, and MySQL. Combines a strong technical foundation with proven communication and customer-service skills gained from working in a fast-paced telecom environment. Eager to contribute to innovative development teams and deliver high-quality, user-centric digital solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS, SASS/SCSS, UI/UX Basics

Backend: PHP, Laravel, REST APIs, Node.js basics

Database: MySQL, PostgreSQL

Tools & Workflow: Git, GitHub, VS Code, Networking Basics

Data & Analytics: Microsoft Excel (Pivot, VLOOKUP), Power BI basics, Data Analytics fundamentals

Office & Productivity: Microsoft Word, Excel, Access, PowerPoint

PROFESSIONAL EXPERIENCE

Customer Service Agent | **e& Egypt (formerly Etisalat) — Cairo Technology Park, Maadi** Jan 2026 – Present

- Deliver technical and account support to telecom customers across voice, data, and digital service channels.
- Resolve complex billing, network, and subscription issues with a high first-call resolution rate.
- Apply structured troubleshooting skills to diagnose and solve technical problems efficiently.
- Collaborate within a high-performance team committed to quality and customer satisfaction.

Cashier & Customer Support | **Kazyon Market — Giza, Egypt** 2025

- Handled high-volume transactions using POS systems while maintaining accuracy and professionalism.
- Resolved customer complaints promptly, ensuring a positive in-store experience.
- Supported inventory management and maintained organized, clean work areas.

CCTV Security Officer | **G4S — Mall of Arabia, Giza** 2022 – 2023

- Monitored surveillance systems to ensure safety of visitors, staff, and property.
- Maintained detailed security logs and incident reports in compliance with G4S protocols.
- Coordinated with on-site teams and emergency services for real-time incident response.

ACADEMIC & PERSONAL PROJECTS

Web Development Projects — Higher Institute of Advanced Studies (MIS Program)

- Built full-stack web applications as part of coursework using HTML, CSS, JavaScript, PHP/Laravel, and MySQL.
- Developed responsive front-end interfaces with React.js and Bootstrap/Tailwind CSS following UI/UX principles.
- Designed and managed relational databases with complex queries and normalized schemas.
- Maintained version control using Git and GitHub throughout the development lifecycle.
